what's Japan Home Show & Building Show

Japan Home Show & Building Show is the largest conglomerate exhibition in Japan for housing and building industry with 47 years of history and reputation from the domestic professionals. The Japanese housing and construction industry offers numerous economic advantages due to its high quality, technological innovation, and competitiveness in the global marketplace.

This year in 2025 by holding together with other joint exhibitions, the show will attract wide range of visitors including the field of homebuilding, construction, interior and exterior for commercial facilities, and also the sphere of infrastructures and buildings. The show will be the perfect opportunity to challenge the Japan market by meeting myriad professionals
